**Writing progress**

The year 2016 focused entirely on the 50th anniversary of Lamy, Germany's leading manufacturer of writing instruments. Elaborately worked, limited and numbered special editions became coveted collector's pieces. A lively exhibition at the Museum "Angewandte Kunst" turned the development and design process into a tangible experience and presented an impressive show on the subject of writing. In the coming months, this exhibition will be making its way through several international museums.

The design festival at the company headquarters in Heidelberg, as the highlight of the anniversary year, impressively demonstrates the authenticity and passion with which the company combines its values quality and design "Made in Germany" in a contemporary fashion with the seminal themes of art, culture and lifestyle.

In 2017, with the LAMY Lx family, a new lifestyle segment will be established in the range of Modern Writing, whereas LAMY scala pianoblack with its fine finish is making its mark in the range of Premium Writing .

Galeria Kaufhof München

## Special award

More than 100 awards for exceptional design quality of writing instruments are success and a requirement in one. The LAMY imporium, which won the Red Dot in 2016 as well as the iF Award, once again did justice to the LAMY brand. Awards for the company itself are even more significant – as they pay tribute to the sustainable success of the company's work over a longer period of time. Besides the award for the "Brand of the Century" a few years ago, Lamy also received the gold medal for the "German Brand Award" in 2016. This award celebrates trailblazing brands, who have been able to convince with consequent branding and sustainable brand communication over a period of many years.

The 'Good Design' award is the world's oldest and most renowned award for innovative and modern product design.

The 'red dot' was first awarded in 1955 and is an internationally recognised seal of quality. Only products of the highest quality receive the red dot: the best of the best.

Since 1953, international design experts have been coming together to form the IF juries in order to evaluate entries from all over the world.

The 'Designpreis der Bundesrepublik Deutschland' is the most revered official German award in the area of design. It is known as the award of all awards. It was first awarded in 1969 and is presented by the Federal Minister for Commerce and Technology.

## New in 2017

The LAMY Lx series is an entirely new category in the Modern Writing segment. Its consequent design as high-quality writing instrument accessories make the devices of the LAMY Lx series a true "must have" for all those who enjoy contemporary lifestyle. In 2017, this appealing series will be further supplemented by an ink rollerball and a ballpoint pen.

Another Lamy innovation is the successful LAMY scala series in timeless pianoblack in a refined high-gloss design.

## Premium Writing

The Premium Writing segment forms the pinnacle of the Lamy product range. Writing instruments in this segment convince with their innovative technical solutions and high-quality materials. Their unique, multiple award-winning design gives them their iconic character. Besides their special radiance, Premium Writing instruments by Lamy provide a writing experience of the very highest quality.

**LAMY screen**

W 551 with 16 LAMY screen / only while supplies lasts

Prod. No.:

1331220

Most of Lamy's writing instruments can be engraved with a name. If not specified otherwise, Lamy engraves in block letters 90 degrees to the right of the clip (or in the clip for LAMY AL-star and LAMY Lx). The engraving on fountain pens is aligned so that it can be read with the cap closed.

Examples for engraving:

Standard engraving

Standard engraving with initials in the clip for ballpoint pens and mechanical pencils (LAMY AL-star / LAMY Lx)

Full name: extended from the clip on ballpoint pens and mechanical pencils (LAMY AL-star / LAMY Lx)

Engraving on the clip (script not possible)

Standard engraving for fountain pens (alignment: legible with the cap closed) LAMY AL-star / LAMY Lx

The following engravings are possible:

- Capitals: MAX MUSTERMANN
- Initials: M. M. or MM
- Engraving in the other direction for left-handed users
- Several lines engraved (depending on available space)

Typeface

Block letters 1: **Max Mustermann**

Block letters 2: **MAX MUSTERMANN**

Italic: *Max Mustermann*

Script letters: *Max Mustermann*

Signature: Details on request
